

Superior Vision®
Our Members. Our Mission.

LASIK Vision Correction

Superior Vision has a nationwide network of over 800 independent refractive surgeons for quality LASIK services. We have also partnered with three well-known LASIK network providers. All of these providers offer value-extending discounts to Superior Vision members.

Independent
Refractive
Surgeons

These providers offer Superior Vision members a 20% discount off the usual and customary surgeon's fees for LASIK vision correction.

QualSight offers members a savings of 20% to 50% off the national average price of LASIK vision correction.

A TLC Laser Eye Centers® Company

TruVision offers members a 10% savings off the entire laser vision procedure.

LasikPlus offers members a 15% discount off their standard pricing, or 5% off of their promotional pricing – whichever is better for the member.

With all of these providers, there are no claims filed, no authorization required by Superior Vision, and no co-payments needed. The discounts are taken at the time of your visit, directly between you and our in-network provider.

All ophthalmologists providing LASIK vision correction undergo detailed credentialing requirements in accordance with NCQA national standards prior to their acceptance into our network. All participating LASIK providers can be found by clicking on the Advanced Search feature of the provider locator on our home page at www.superiorvision.com.

Superior Vision does not make any warranty or assume any legal liability or responsibility for the surgical outcomes or medical management of any laser vision correction procedures. All responsibility lies with the specific provider and/or vision correction facility.
